SECTION 1 – SCHOOL OVERVIEW

Lindsey Hopkins Technical College is located 1.5 miles from downtown Miami in the heart of the Health District of Greater Miami. Miami's major hospitals such as Jackson Memorial Hospital, University of Miami Leonard M. Miller School of Medicine, Ryder Trauma Center and Miami Dade College Medical Campus are located in the Health District. Lindsey Hopkins Technical College is a fire-building complex. As a public, post-secondary institution operating under the authority of the School Board of Miami-Dade County, Florida, and the Florida Department of Education it offers General Education and Career and Technical programs.

SECTION 2 – TIMELY WARNING AND EMERGENCY NOTIFICATION MEASURES

Lindsey Hopkins Technical College uses several methods to disseminate information alerts to faculty, staff and students. Many tools are employed to ensure effective communications such as: on campus school-wide announcement system, switchboard operator, and ConnectEd, a high-speed telephone notification system, to send mass notifications by telephone, email and text to keep faculty, staff and students informed. If an incident poses an immediate threat to the health and safety of students or employees, a schoolwide announcement will be made to expedite emergency response to lockdown and/or evacuation procedures. If a situation arises before school hours where faculty/staff will require rapid notification a ConnectEd call shall be initiated, and the telephone tree system is utilized to contact employees.

Moreover, School Board Policy 8410 - Critical Response/Emergency Procedures directs the Superintendent of Schools to establish annually a District Critical Incident Response Team (DCIRT). The DCIRT is responsible for assisting schools with emergencies and critical incidents as needed and coordinate district resources. The Superintendent has developed and updates, as needed, a Critical Incident Response Plan (CIRP)/Emergency Operations Plan (EOP) for all schools. The DCIRT, will be responsible for providing updates to the plan and training for school site administrators. In accordance with Florida Statutes, the CIRP/EOP should be confidential and exempt from public record.

SECTION 3 – PREPARING THE ANNUAL DISCLOSURE OF CRIME STATISTICS

Persons should report crimes to the appropriate site administrator and school police for the purpose of issuing a timely warning notification and inclusion in the annual crime statistics or that campus.

The crime statistics for Lindsey Hopkins Technical College are maintained and provided by the Miami-Dade Schools Police Department (M-DSPD) which has jurisdiction for all of the district's public schools. M-DSPD works closely with the Miami-Dade Police Department and other municipal police departments to respond to school incidents and emergencies as part of City Compacts and Memorandum's of Understandings established with the numerous municipalities in Miami-Dade County Florida. Criminal incidents are reported to MDSPD which documents these incidents via the Police Offense Incident Reports. School administrators also document incidents using the District's Automated Incident Response System (AIRS) which archives and maintains a log of all major incidents for district schools.

The MDSPD provides Lindsey Hopkins Technical College the crime statistics required to complete the Annual Security Report (ASR) mandated by the Clery Act for the last three calendar years. The report is made available to the public, employees, faculty, and staff at lindseyhopkins.edu. A hardcopy of the report can be obtained from the Office of Student Services. The school will notify all students, faculty,

and staff of the availability of the annual report once it is finalized and submitted to the United States Department of Education

The DCIRT is responsible for assisting schools with emergencies/critical incidents as needed and coordinate District resources. The Superintendent has developed and updates as needed a Critical Incident Response Plan (CIRP)/Emergency Operations Plan (EOP) for all schools. The DCIRT, will be responsible for providing updates to the plan and training for school site administrators. Pursuant to Florida statutes, the CIRP/EOP should be confidential and exempt from public record.

Reports and Complaints

Students are encouraged to promptly report incidents of discriminatory or harassing conduct to their Principal or the Office of Civil Rights Compliance (CRC) so that the conduct can be addressed before it becomes severe, pervasive, or persistent.

Students who believe they have been harassed or discriminated against are entitled to use the complaint process in Policy 5517.02. Students and parents are encouraged to present complaints of discrimination or harassment by other students or employees to the Principal. Complaints against employees will be referred by the Principal to the CRC Office as soon as possible after the alleged conduct occurs while the facts are known and potential witnesses are available. During the investigation the complainant and the subject of the complaint shall be provided an opportunity to present witnesses and evidence relevant to the complaint. The Principal shall apply the Code of Student Conduct to allegations of discrimination harassment by students.

The investigative process through CRC involves the investigation of complaints of harassment and discrimination based on the protected categories. The CRC office investigates each case within a reasonable time.

Documentation of investigations of complaint, and of any corrective action taken by the school site and throughout the District, will be maintained by the department that conducted the investigation. Records of ongoing investigations are kept confidential until a final determination is made on each case. During the investigative process, appropriate preventive measures will be taken to protect the victim and the school community. Subsequent to the completion of a case, the complainant and the subject of the complaint will be provided with written notification of the outcome of the investigation. The District will take remedial action as necessary, to address and resolve any substantiated complaint of discrimination or harassment and to prevent its recurrence.

Initiating a complaint will not adversely affect the complainant's participation in educational or extracurricular programs, unless the complainant makes the complaint maliciously or with knowledge that it is false. Investigation of an allegation shall not be proceeding solely on the basis of an anonymous complaint without first attempting to ascertain the identity of the complainant. If after such efforts, the complainant remains anonymous, the investigation will proceed to the extent possible.

All records generated under this policy and Policy 5517.02 shall be maintained as confidential to the extent permitted by law.

The complaint process in Policy 5517.02 is not intended to interfere with student rights to pursue complaints with the United States Department of Education Office of Civil Rights, or the Florida

Department of Education. The CRC Office processes such complaints according to the procedures

and standards set forth by Federal and State agencies.

Education and Training

The Board promotes preventative educational measures to create greater awareness of unlawful harassment and discrimination. The Superintendent shall provide appropriate training to members of the School District community related to the implementation of this policy and policy 5517.02.
